## **Safety and Health Policy Statement**

Our company, Expert Mechanical Service, Inc., considers safety and health to be the most important part of our operation. Through the implementation of safety goals, objectives, work rules and continuous evaluations, we will make every effort to prevent work-related accidents, injuries, and illnesses through the anticipation, recognition, and correction of unsafe working conditions and practices.

We will take all appropriate measures to prevent injuries and accidents through education and to eliminate unsafe conditions through continual workplace evaluation. Our safety program begins at the top level of management and involves all employees throughout the organization. We each will respect and enforce company safety objectives and rules.

All employees, through initial orientation and periodic training, will be familiar and comply with all aspects of the safety program. Everyone's participation and input is essential to the program's success.

***The most important part of any job is safety!***

A handwritten signature in black ink that reads "Kelly Biddle". The signature is written in a cursive style.
